

HippoPortamus

The HippoPortamus

Power and Portability, two attributes rarely found in a media server. Meet the HippoPortamus. Designed around the same feature set as its bigger family members, this laptop based server holds all the tools necessary to perform world class events, yet slips easily into a laptop bag to allow the travelling professional to take shows with them wherever they go.

Running on one of the world's most powerful mobile machines, HippoPortamus retains all the features you've come to expect from a Hippotizer allowing playback of video up to HD 1080p in rich smooth quality. Built in media encoding and media management means that handling content is a breeze. Realtime functionality is enhanced by Hippotizer's new software decoding features.

HippoPortamus: Power and flexibility wherever creativity takes you.
